CIOB

Embracing a sustainable future with

Digital Membership Cards

At CIOB, we have made a commitment to explore and seek out new methods to cut down on waste, and innovate new sustainable services that can help improve our members' benefits.

We recently decided to introduce Digital Membership Cards and this new initiative will offer digital cards instead of printed cards to members, cutting down on waste and improving our members' experience. We will start by offering digital cards to our Chartered Members, Chartered Fellows and Technical Members.

Follow the steps below to download your Digital Membership Card.

Android	iPhone
Install Google Wallet from Google Play. After downloading the app, open the email from your smartphone and click "name@romax.co.uk" in the membership email. The card will automatically be saved to your Wallet app.	Open the email from your smartphone and click "Add to Wallet" and "Add." The card will automatically go to your Apple (iPhone) Wallet. If you have an Apple Watch, it will also appear there.

When can you use your Digital Membership Card?

Your membership number, which is contained on your card, is used:

- To gain free access to our high-value CPD events
- To pay your membership subscriptions
- On any assessment/certification applications
- As proof of your membership grade

Each card is unique and includes your personal membership number. If you are a CIOB Chartered Member, Chartered Fellow or Technical Member and have not received an email, please get in touch with our member services team on:
